DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10 and 26, drawn to configuring a downlink signal to send from a base station to a mobile station.

Group II, claim(s) 11-25 and 27-31 drawn to synchronizing a base station with a mobile station.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature in Group I is allocating and inserting pilot subcarriers into an OFDMA downlink frame which is not present in Group II; the special technical feature of Group II is performing initial synchronization and tracking which is not present in Group I.

A telephone call was made to Yoon Ham on February 12, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 C.F.R. 1.1.43).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

3. On review of the instant application for unity of invention only, it appears the claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. To facilitate examination of the application, please provide a proper translation of the foreign application.
